

Protecting your contents and personal belongings

A fire, flood, or burglary can be devastating. Nothing can truly make up for the loss, but insurance can help cover some of the costs.

Haven Home Safe has home insurance which would cover the cost of repairing the physical structure of your house if something goes wrong.

As a renter, it is your responsibility to arrange and pay for your own contents insurance to cover household items such as furniture, clothing, electronics, appliances and more.

Each policy is different, but contents insurance usually includes:

- Replacement of stolen or damaged items.
- Cover for fire, flood, or storm damage.
- Some policies may include emergency accommodation if your home becomes unlivable.

Please note: In line with Haven Home Safe's policies, we are not able to provide emergency accommodation.

Tips

- Compare different providers. You can compare quotes on Compare the Market.
- Always check your policy to see what is included.
- Ask the provider if they have flexible payment options.
